NOTICE OF ALLOWANCE

This is a NOTICE OF ALLOWANCE in response to the AMENDMENT filed 6/22/2009. Claims 1-25 remain in 5th Application.

The present Application No. 10/586,218, filed 07/14/2006 is a national stage of PCT/IB05/50153, international Filing Date 01/13/2005, which claims foreign priority to EPO Application No. 04100141.3, filed 01/19/2004.

Allowable Subject Matter

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record taken alone or in combination fail to teach, anticipate, or render obvious a test access architecture for testing a cascade of modules embedded in an electronic circuit, as recited in the independent Claim 1, including among other features, "a plurality of control circuits, each of the control circuits associated with one of the modules and each of the control circuits arranged to control whether the global enable signal is passed to the module associated with the control circuit."

Similarly, independent Claim 13 recites a method of testing a module in an electronic circuit, the module being one of a cascade of modules embedded in the electronic circuit, including among other features, "placing the other modules connected to the test access mechanism in a transport mode of operation, wherein, in the transport mode of operation, the other modules do not corrupt a second set of test stimulus data

being loaded into the module being tested, and the other modules do not corrupt previous test response data being unloaded from the module being tested, wherein each of the modules in the transport mode of operation use the single data path and the module being tested uses the single data path.”

Consequently, Claims 1-25 are allowed over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
